( Providing that the testing basis continues unchanged )

**Notes:** (\*) The manufacturer declares that these products are constructed using the same materials, components and processes as the tested type Coversun1 on module Micron CA260. Suffix XXX indicates rated power. Suffix Y is the number of structures on the Coversun supports: Y may vary from 1 to 7. Further details on certified models are reported on the attachment. Technical data, materials and components description are into the indicated test reports. Any changes of the design, materials, components or processing may require the repetition of some of the qualification tests in order to retain type approval. (\*\*) Fire test is not performed; modules are tested according to standard EN-61730-2. The certification is performed on tested model as retest according to IECCE "Retesting guideline" for similarity with model CA279 (certificate n° C01 09C491001 released by Eurotest Laboratori in date 12/10/2009). This certificate is for type approval and based on voluntarily product test without Factory inspection.
